PROFESIONAL SERVICES

1) Built systematic, integrated approach towards Knowledge Management (developed through a Center of Excellence of the ePMO for example)
2) How I developed efficient knowledge management throughout my team

- Built KM team (sold it to leadership) > rotating KM team lead / every level contributes (part of their quarterly goals).
- Ran knowledge fairs > Lunch & Learn / present White Papers / 1-3 hours per designated person on client knowledge transfer / lessons learned.
- Developed *who-knows-what* directory (dictionary of your team's capabilities) > dictionary of my team's capabilities / connect people-with-people / open door policy / juniors to shadow seniors / challenge 90:90 (90% of people knows 90% of company) - used Method Grid
- Develop a "*how to the team up and running"* guide (training plan of how to get your team trained) > have a plan to get people where they need to go!
- Develop Intellectual Property > Content (Blogs, Powerpoint / video / white papers), Methodology (Handbook, digital enterprise methodology, Standard Operating Procedures, Dataset, Diagnostic tools, Software - Smartsheets, Asana, Jira, etc.), Registered IP (URLs, trademark, Patents, registered media profiles)...it has to be intuitive, Dynamic, Empowering, Accessible and Secure.
- Developed and curate knowledge repositories (each team member from Jr Analyst to Principal needs to contribute as part of their second job).
- Did regular KM Audits.
- Communicated constantly!
