

EPMO CONCEPTS, DESIGN AND EXPERIENCE

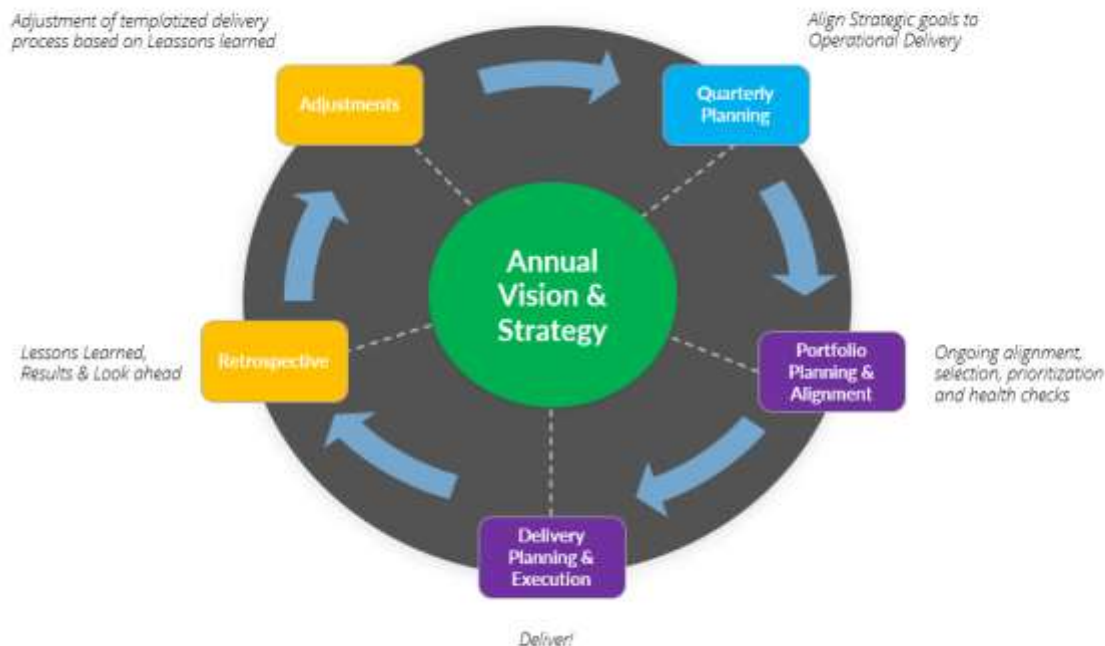

MY VISION OF EPMO

PROBLEM STATEMENT I RESOLVED FOR LEADERSHIP THROUGH EPMO

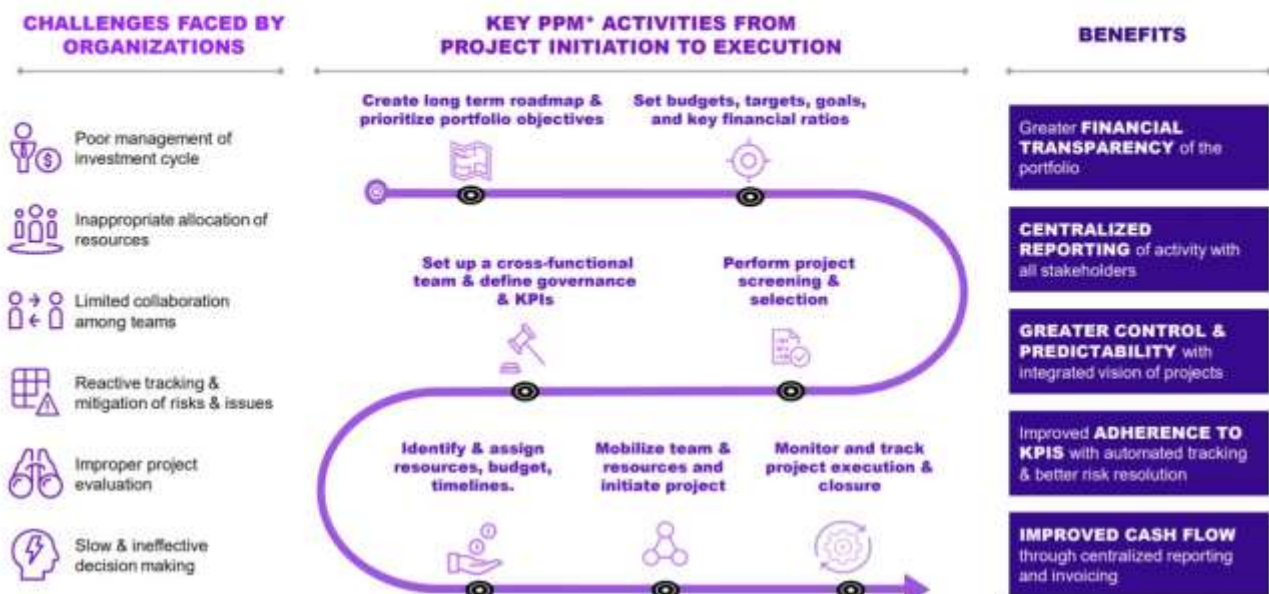

- How are we aligning our corporate strategy based on the demand generated by our clients?
- How are we tracking customer success? What are the KPI's
- Which business capabilities are in trouble? Which ones could be next?
- How is my portfolio / project delivery at client doing?
How are we trending?
How will my client portfolio end up doing?
- What do I need to know, review, evaluate, and possibly act upon the feedback we get from our customers?
- Is our internal knowledge being disseminated correctly throughout the company?
- When are the first indications that something may be amiss? Or that there are opportunities?
- Why didn't I see this coming?
Why did projects fail in the past? Statistically, are there root causes for cascading effects?
- Who are the experts?

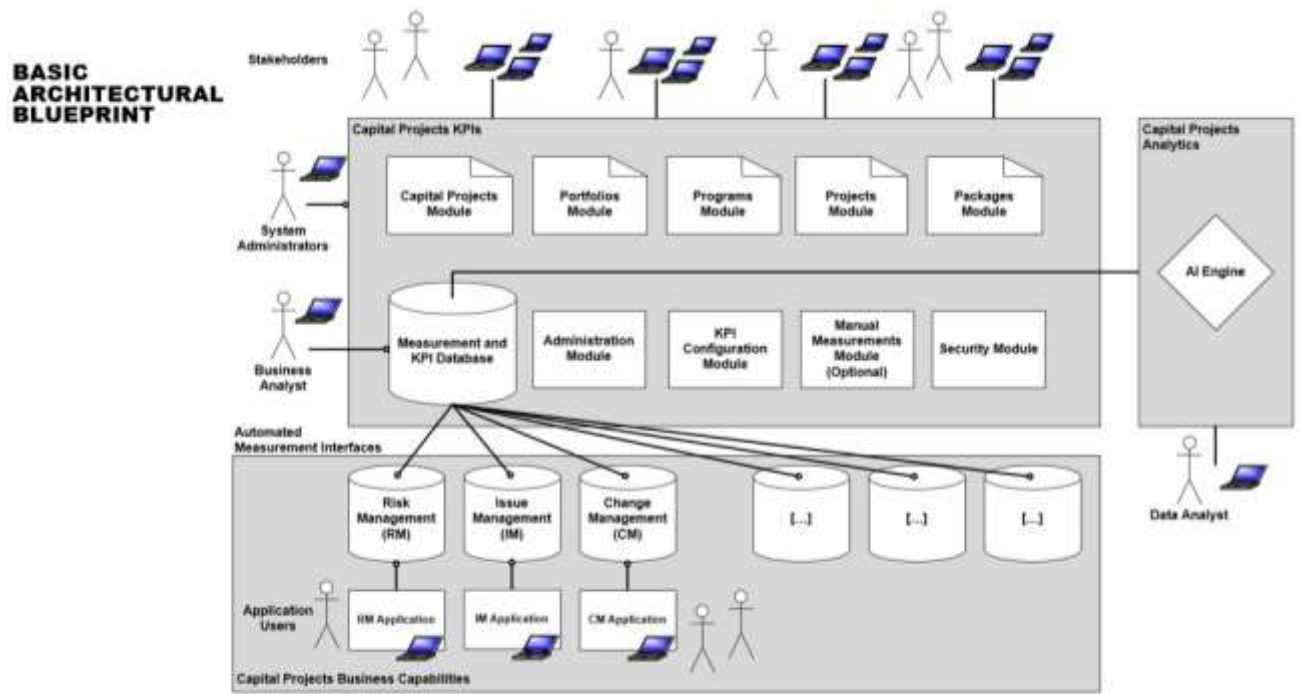

MY APPROACH TO PMO OPERATING PROCESS

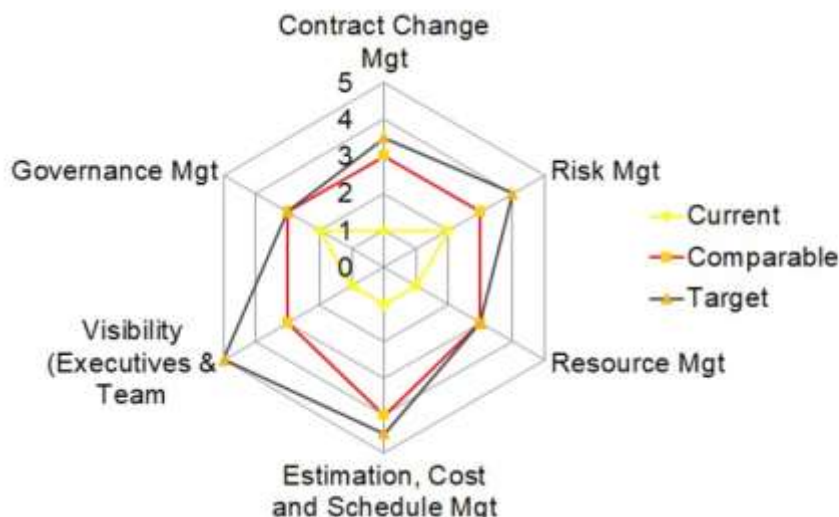

MY APPROACH TO EPMO

Building PMOs and managing client Portfolios

WHERE ARE WE NOW? TRADITIONAL MATURITY LEVEL → 6 FACTORS TO LOOK AT...

Example of possible key challenges ?

- > Is it that there is no global adherence to PM Best practices / Tools / Discipline?
- > Is it that there is no single resource pool and no Resource Allocation done?
- > Is it that the projects never really have a proper Closeout phase?
- > Is it lack training or tools available? Or both?
- > Tools don't support risk process and maturity
- > ETC...

CONCEPT
